

Jérôme DESALE

Seeking a six-month final-year engineering internship in digital health, artificial intelligence and medical technologies
(February-July 2027)

PROFILE

Final-year engineering student at EPF (France), specialising in Engineering and Health with a focus on Digital Health. Interested in artificial intelligence applied to healthcare, medical data analysis and connected medical devices. Rigorous, curious and adaptable, with strong teamwork and communication skills.

21 years old

Driving licence B

Available to relocate to Buenos Aires

Internship agreement provided by EPF

LANGUAGES

French: Native

English: B2

Spanish: B1 (currently improving)

INTERESTS

Tennis (12 years), Football (4 years)
Skiing

Travel and discovering new cultures
Biomedical innovation and technology
Cinema and Music

SKILLS

- **Artificial Intelligence & Data:** Machine Learning, Deep Learning, Data Analysis, Medical Data
- **Biomedical Engineering:** Medical Imaging, Telemedicine, IoT for Healthcare, Hospital Information Systems
- **Engineering tools:** Unity, Arduino, CATIA V5, JMerise, MATLAB, Simulink
- **Programming languages:** Java, HTML, JavaScript, C++, Python, VBA, SQL

EDUCATION

EPF School of Engineering – 2022-2027

Currently in 5th year – [Engineering & Health – E-Healthcare Track](#) 

Main academic projects:

Prosthetic Foot Project: Designed and tested a 3D-printed prosthetic foot using CAD and finite element simulation and experimental testing (CATIA V5, Fusion 360)

Virtual Reality Project: Developed an upper-limb rehabilitation experience with Unity and Meta Quest 2

Mechatronics Project: Built an automated wheelchair prototype controlled through a mobile application (Arduino)

Database Project: Developed an airline management database using VBA and SQL

University of Oulu – Finland – Fall 2025

Exchange semester

Relevant coursework: Biomedical Engineering, eHealth, Electronic Sensors and Human-Computer Interaction.

French Baccalaureate – Honours (“Bien”) – 2021-2022

Specialties: Mathematics and Physics-Chemistry

Lycée Jacques Monod, Clamart 92140

PROFESSIONAL EXPERIENCE

Ma P'tite Echoppe,

Community Engagement Internship

June 2024

- Management and organisation of donations

SAMADA,

Warehouse Internship – Order Picker

June – July 2023, Wissous (France, 91)

- Order preparation for Monoprix stores across France

PSA Group,

Work Observation Internship

February 2019, Vélizy (France, 78)

- Introduction to different engineering roles, particularly virtual reality and embedded systems
